Special Assistant to the DD/A
[REDACTED]

Deputy Comptroller

Proposed Regulation
Evaluation [REDACTED]

Personnel

1. We have reviewed the subject proposed regulation and concur in the basic principles and policies contained therein; however we offer the following suggestions which it is felt should receive consideration before issuance of the regulation:

a. Some clarifying language might be inserted in paragraph 3 b to indicate that the Evaluation Officers appointed under the regulation will assume the duties of this position as additional responsibilities of their present positions in order to obviate the possibility of any misunderstandings and requests for additional positions in the tables of organization.

b. In paragraph 3 b, also, the word "major" should be inserted in the third line immediately preceding the word "components" in order to clearly indicate that the new Evaluation Officers will be required only in the principal organizational segments of the offices specified.
